Scalpel
Toothed dissecting Forceps
Teeth of toothed forceps
How to hold dissecting forceps
Non toothed dissecting Forceps
Fenestrated non toothed Forceps
Artery Forceps (Haemostatic)
Mosquito Forceps
Sinus Forceps (Dressing)
Lane’s Tissue Forceps
Babcock’s Tissue Forceps
Allis’s Tissue Forceps
Towel Clip
Sponge holding forceps
Holding a sponge
2/0 Chromic catgut on round needle
3/0 Synthetic absorbable suture on round needle
Synthetic non absorbable suture on cutting needle
How to hold the needle holder
Towel (Abdominal)
Rubber or plastic corrugated drain
Rectal tube
Urine Bag
Ryle's naso-gastric tube
Sengstaken Tri lumenal tube
Non-crushing (occlusive) clamp for intestines
Non - crushing intestinal clamp (curved)
Crushing (payr’s) intestinal clamp
Twin – clamp located together
Cholesteral gall stone
Solitary cholesterol stone
Salitary cholesleral stone
Nixed gall stones
Pigment stones
Gall bladder with mixed stones
Cholecystectomy Clamps (Moynihan)

- Rt. Angled
- Curved
Stone Forceps Curved (Desjardin)
Stone Forceps Rt. Angled
Bile duct dilator (Bakes)
Metal dilators for urethral and ureteric strictures
T. Tube
Proctoscope
Obturator is out of the proctoscope
Biopsy forceps
Colostomy Bag
Colostomy Bag
Nelaton catheter
Foley’s catheter
Foley’s catheter inflated ballon
De-pezzer self retaining catheter
Vein stripper
Vein stripper Handle in place
Bulldog occlusive arterial clamp
Bulldog clamp opened
Satinsky’s Vena Cava clamp
How Satinisky’s clamp used on I.V.C.
Aneurysm needle
Passage of a Ligature
Passage of a ligature
Ligature is in place
Periosteal elevator
Doyen’s raspatory
Rib shear
Instruments used in rib resection
Gigli’s saw
Skull rongeur (Bone nibbling)
Skull rongeur
Bone cutting forceps
Straigh surface (Bone cutting forceps)
Grooved surfaca (Bone cutting forceps)
- Bone cutting
- Skull rongeur
- Rib shear
Linear Stapler
Linear Stapler
Urinary Stones
Enlarged spleen
Submandibular Salivary gland with stone
Acute appendicitis
Rupture spleen
